Wine Experiences

Wine is a part of our experience for the simple reason that all the elements of wine making relate so closely to the attributes of women. We celebrate our individuality, we are changing all the time, and we respect and support the idea that each of us has something special just waiting to develop if all of our noble traits are nurtured and celebrated!

Becoming involved in Networking, Women and Wine gives you so many benefits. We offer preferred pricing with many wine vendors in our area, indepth education about wine, food pairing resources, and a place to relax!

Meaningful Connections

We believe that women inherently understand how to find solutions and create connections by seeking out and establishing friendships with like minded women.

Our highest priority is to create a safe place to form these bonds. More than acquaintances, these introductions last beyond the exchange of a business card or a referral.

Each monthly event also includes a program designed to help nurture your sense of self, which in turn can enhance your ability to achieve success personally and professionally. There's no other networking group like it!

How do I learn more?

Visit www.networkingwomenandwine.com.

WHERE DO YOU MEET? - Our events occur once a month at a chosen wine bar or through a wine distributor in local areas. We sample and learn about wine, as well as experience an atmosphere conducive to soft networking.

HOW MUCH IS EACH NETWORKING EVENT? - Our monthly networking events are typically \$25 or less, which includes the event and program, all wine tasting and generous appetizers.

CAN I BRING A FRIEND TO THESE EVENTS? - Yes, we would love to have you bring other women with you to experience first hand what we offer. All women are welcome to attend our wine tasting and networking events.

HOW DO I GET ON THE MAILING LIST?
